

Symposium programme

FRIDAY 19 OCTOBER 2012

- 8.30 am **Registration, tea and coffee**
- 8.50 am **The London Cardiovascular Symposium Video 2012**
Welcome and introduction
George Geroulakos, President, RSM Vascular Medicine Section
- 9.00 am **SESSION ONE: AORTA ONE**
Chairs: Peter Harris, London, UK and Duke Cameron, Baltimore, USA
- 9.00 am **What are the clinical implications of genetic research into aortic aneurysmal disease?**
Anne Child, London, UK
- 9.08 am **Aortic valve replacement prior to vascular surgery: When is it indicated for what pathologies and does TAVI broaden the indications for intervention?**
Duke Cameron, Baltimore, USA
- 9.16 am **Will endovascular treatment become the preferred option for repair of acute type A dissection?**
Matt Thompson, London, UK
- 9.24 am **Is there a role for endovascular treatment in the management of Takayasu's disease of the aortic arch?**
Füruzan Numan, Istanbul, Turkey
- 9.32 am **Technical challenges associated with endovascular management of acute type B aortic dissection: What are they and how can they be addressed?**
Chang Shu, Hunan, China
- 9.40 am **Technical challenges associated with endovascular management of chronic type B aortic dissection: What are they and how can they be addressed?**
Tom Carrell, London, UK
- 9.48 am **Technical challenges associated with endovascular management of acute aortic transection injury: What are they and how can they be addressed?**
Matthew Matson, London, UK
- 9.56 am **Discussion**
- Case reports:**
- 10.25 am **Ascending aorta and endovascular stent grafts in high risk patients**
Ourania Preventza, Houston, USA
- 10.35 am **Connective tissue disorders and stent grafts: When and how to use the endovascular technology**
Ourania Preventza, Houston, USA

LONDON CARDIOVASCULAR SYMPOSIUM 2012

- 10.45 am **Aortcutaneous fistula**
Michael Sabetai, London
- 10.55 am **Tea and coffee break**
- 11.20 am **London Cardiovascular Symposium Video 2012 (short version)**
- 11.25 am **SESSION TWO: COMPLEX VENOUS DISEASES**
Organised with the European Venous Forum
Chairs: Andrew Nicolaides, Chairman, European Venous Forum and Alun Davies, London, UK
- 11.25 am **Is intravascular ultrasound (IVUS) the new gold standard for diagnosis of iliac vein occlusive disease?**
Seshadri Raju, President, American Venous Forum
- 11.33 am **Results of stenting for IVC total occlusion**
Seshadri Raju, President, American Venous Forum
- 11.41 am **Long term results of iliofemoral stenting post DVT**
Rabih Chaer, Pittsburgh, USA
- 11.49 am **Is deep venous valvuloplasty relevant in the era of iliac vein stenting?**
Oscar Maleti, Modena, Italy
- 11.57 am **When is first rib resection indicated following thrombolysis for Paget-Schroetter syndrome?**
George Geroulakos, London, UK
- 12.05 pm **Results of open and endovascular procedures for superior vena cava syndrome: Different horses for different courses?**
Marzia Lugli, Modena, Italy
- 12.13 pm **Discussion**

Case reports:
- 12.40 pm **Multi-stage reconstructive surgery of the deep veins in a patient with post-thrombotic disease and recurrent trophic ulcers**
Evgeny Shaidakov, President, Society of Phlebology, St. Petersburg, Russia
- 12.50 pm **Severe symptomatic superior venacava syndrome – a novel treatment**
Chris Lattimer, London, UK
- 1.00 pm **Lunch**
- 1.50 pm **London Cardiovascular Symposium Video 2012**

LONDON CARDIOVASCULAR SYMPOSIUM 2012

- 2.00 pm **SESSION THREE: AORTA TWO**
Chairs: Tahir Hussain, London, UK and Matt Thompson, London, UK
- New fenestrated endografts compared: Relative advantages and limitations (6' each):**
- 2.00 pm **Cook off-the-shelf fenestrated endograft**
Tim Resch, Malmo, Sweden
- 2.06 pm **Endologix Ventana fenestrated cuff**
Matt Thompson, London, UK
- 2.12 pm **Vascutek; Custom fenestrated anaconda**
Nick Burfitt, London, UK
- 2.18 pm **Discussion (10')**
- 2.28 pm **The Nellix endograft with inflatable seal and fixation: Is this the future of EVAR?**
Chris Zarins, San Francisco, USA
- 2.36 pm **Late post-EVAR ruptures in the UK EVAR 1 trial: Does this mean even more intensive follow up surveillance and an even higher rate of secondary intervention or a return to open surgery?**
Martin Malina, Malmo, Sweden
- 2.44 pm **Low profile and precise deployment are key to improving the results of EVAR**
Christos Liapis, Athens, Greece
- 2.52 pm **Hansen Magellan robotic catheter manipulation system: Does it really facilitate complex endovascular interventions?**
Nick Cheshire, London, UK
- 3.00 pm **Is endovascular reconstruction of an occluded aortic bifurcation an acceptable alternative to an aorto-bifemoral graft?**
Richard McWilliams, Liverpool, UK
- 3.08 pm **Horseshoe kidney and AAA: How should it be managed?**
Jonathan Boyle, Cambridge, UK
- 3.16 pm **Discussion**
- Case reports:**
- 3.35 pm **Aortic bilateral common and inter iliac aneurysm – an endovascular approach**
Yaser Naji, London, UK
- 3.45 pm **Paraplegia following thrombectomy of an axillobifemoral graft in a patient with chronically occluded aorta**
Saroj Das, London, UK
- 3.55 pm **Expanding aneurysm following EVAR**
Steve Jones, Liverpool, UK
- 4.05 pm **Tea and coffee break**

LONDON CARDIOVASCULAR SYMPOSIUM 2012

- 4.25 pm London Cardiovascular Symposium Video 2012 (short version)
- 4.30 pm **SESSION FOUR: Vascular disease in diabetic patients**
Chair: Toby Richards, London, UK and Michael Edmonds, London, UK
- 4.30 pm **Amputations due to diabetic vascular disease: What has been the impact of the London Diabetic Foot Care Network?**
Stella Vig, London, UK
- 4.38 pm **Drug eluting and absorbable stents: Will they have a place for treatment of small vessel diabetic vascular disease?**
Cliff Shearman, Southampton, UK
- 4.46 pm **Does femorodistal bypass still have a place in the management of diabetic vascular disease: When, where and how?**
Andrew Bradbury, Birmingham, UK
- 4.54 pm **Portable, disposable vacuum dressings to facilitate early discharge of diabetic foot ulcers**
John Timmons, Aberdeen, Scotland
This speaker is kindly sponsored by Smith & Nephew
- 5.02 pm **Magnetic targeting for delivery of reparative endothelial cells in diabetic vascular disease**
Toby Richards, London, UK
- 5.10 pm **Discussions**

Case reports:
- 5.40 pm **Hybrid remote endarterectomy in a posterior tibial artery bypass in a diabetic patient with critical limb ischaemia**
Hani Slim, London, UK
- 5.50 pm **Healing on the move**
Mustafa Khanbhai, London, UK
- 6.00 pm **'Breaking news' – clinical trial**

AORFIX™ US Pythagoras study results on patients with challenging aortic necks
Joerg Tessarek, Lingen, Germany
This speaker is kindly sponsored by Lombard Medical Technologies
- 6.15 pm **Closing remarks and completion of evaluation forms**

Drinks reception, courtesy of The London Clinic
- 7.00 pm **Faculty dinner for invited guests only**

LONDON CARDIOVASCULAR SYMPOSIUM 2012

SATURDAY 20 OCTOBER 2012

- 8.30 am **Registration, tea and coffee**
- 8.50am **London Cardiovascular Symposium Video 2012**
- 9.00 am **SESSION FIVE: Risk factor management/prevention in patients with peripheral vascular disease**
Chair: Sophie Renton, London, UK and Christos Liapis, Athens, Greece
- 9.00 am **Risk stratification beyond Framingham. A practical approach**
Andrew Nicolaides, London, UK
- 9.10 am **Evidence-based clinical interventions to promote smoking cessation in hospital patients**
Robert West, London, UK
- 9.20 am **What is the effect of exercise on risk factor control?**
George Geroulakos, London, UK
- 9.30 am **Novel biomarkers and blood pressure variability as risk factors for cardiovascular disease**
Peter Sever, London, UK
- 9.40 am **Discussion**
- 9.50 am **SESSION SIX: AORTA THREE**
Chair: Mike Wyatt, Honorary Secretary, Vascular Society of Great Britain and Ireland and Hazim Safi, Houston, USA
- 9.50 am **Debate 1: The multilayered aneurysm repair system (MARS) could render fenestrated and branched endografts obsolete (6')**
Charles McCollum, Manchester, UK
- 9.56 am **Debate 1: The multilayered aneurysm repair system (MARS) represents a false dawn: Fenestrated and branched endografts are here to stay (6')**
Robert Fisher, Liverpool, UK
- 10.02 am **Discussion (12')**
- 10.12 am **Debate 2: Off-the-shelf branched endografts will render hybrid procedures obsolete for treatment of TAAA (6')**
Michael Jenkins, London, UK
- 10.18 am **Debate 2: The results of open surgery for TAAA are so good that both of the above techniques are irrelevant (6')**
Hazim Safi, Houston, USA
- 10.24 am **Discussion (12')**
- 10.34 am **Salvage of failed prior infrarenal endovascular aneurysm repair with fenestrated endovascular stents**
Donald Adam, Birmingham, UK

LONDON CARDIOVASCULAR SYMPOSIUM 2012

- 10.42 am **Update on the BSET/GLOBALSTAR registry of fenestrated endografts in the UK**
Rao Vallabhaneni, Liverpool, UK
- 10.50 am **How should mycotic aortic aneurysms be managed?**
Sherif Sultan, Galway, Ireland
- 10.58 am **Discussion**
- 11.10 am **Tea and coffee break**
- 11.25 am **London Cardiovascular Symposium Video 2012 (short version)**
- 11.30 am **SESSION SEVEN: European Vascular Surgeons in Training**
Chairs: Simon Parvin, Secretary General, European Society for Vascular Surgery and Efthymios Avgerinos, Secretary General, European Vascular Surgeons in Training
- A series of short case reports (5' each) within this meeting's themes by the European Society of Vascular Trainees
- 11.30 am **Subacute anterior spinal cord ischaemia with lower limb monoplegia: A clinical dilemma of a challenging scenario**
Peadar Waters, Galway, Ireland
Co-authors: Hynes N, Tawfick W, Sultan S
- 11.40 am **Use of the superficial femoral vein for vena cava reconstruction during the surgical resection of a retroperitoneal teratoma**
Nirvana Sadaghianloo
Co-authors: Jean-Baptiste E, Benizri E, Rahili A, Declémy S, Hassen-Khodja
Nice, France
- 11.50 am **Spontaneous aortic rupture due to human immunodeficiency virus associated vasculitis: A case I wish I hadn't done**
Niamh Hynes, Galway, Ireland
Co-authors: Tawfick W, Sultan S
- 12.00 pm **Abdominal aortic aneurysm rupture after EVAR: A case report of successful endovascular management and implications on endograft stability**
Triantafillos Giannakopoulos, Athens, Greece
Co-authors: Dalainas I, Moulakakis K, Kakisis JD, Papapetrou A, Sfyroeras GS, Gkekas C, Markatis F, Vassilopoulos I, Kallinis A, Antonopoulos CN, Liapis CD
- 12.10 pm **Endovascular management of multiple aneurysms secondary to hyper-eosinophilia syndrome**
Terri McVeigh, Galway, Ireland
Co-authors; Tawfick W, Hynes N, Sultan S
- 12.20 pm **Groin wound complication after EVAR: High output serous discharge successfully treated with talc sclerodesis**
Shalini Sinha, London, UK
Co-authors: Metcalfe D, Sadek N, Ho A, Karthikesalingam A, Jones KG, Hinchliffe RJ, Black SA, Thompson MM

LONDON CARDIOVASCULAR SYMPOSIUM 2012

- 12.30 pm **I can feel two femoral pulses in each groin!!**
Nader Hamada, Galway, Ireland
Co-authors: Courtney D

Harvey prize presentation 2012
- 12.40 pm **Combined open and endovascular techniques in the management of thromboembolism can lead to improved outcomes**
Helen Teixeira, London, UK
Harvey Presentation 2012 – 1st prize winner
- 12.50 pm **A case of a giant coronary artery aneurysm in association with multiple extracoronary arterial aneurysms**
Jonathan Clarke, London, UK,
Harvey Presentation 2012 - 2nd prize winner
- 1.00 pm **THE KEYNOTE SESSION**
Chair: Peter Harris, London, UK
- 1.00 pm **Saving diabetics from unnecessary amputations: What more can be done?**
Michael Edmonds, London, UK
- 1.15 pm **What are the challenges for vascular networks and individual vascular clinicians associated with centralisation of arterial services and how are they being addressed?**
Mike Wyatt, Honorary Secretary, Vascular Society of Great Britain and Ireland
- 1.30 pm **Contribution of medicine to the London Olympic Games and the success of team GB**
Michael Loosemore, London, UK
- 1.45 pm **Completion of evaluation forms and closing remarks**
- 1.45 pm **Close of symposium followed by lunch and networking**
